Web & Mobile App developer

A skilled software developer with expertise in building full-stack websites and cross-platform mobile applications. Proficient in modern technologies like Laravel, Next.js, TypeScript, and React Native, I aim to solve real-world problems through scalable, innovative solutions. Passionate about teaching and empowering others, I am eager to contribute to impactful projects and continue growing in the tech industry.

WORK EXPERIENCE

Tecudic Computer Institute •Owerri Imo State   **06/2021 – 04/2022**
Instructor & Web developer•Full-time

- Taught foundational computer appreciation courses, covering Microsoft Word, Excel, and PowerPoint, to build essential computer literacy skills.
- Delivered comprehensive web development training, including front-end and back-end development, equipping students with practical coding skills and project experience.
- Adapted teaching methods to suit a diverse range of learners, including teenagers and adults, ensuring effective knowledge transfer and engagement.
- Designed, developed, and maintained websites for the institution and its clients, delivering user-friendly and responsive solutions tailored to specific requirements.
- Provided technical support and consultation for ongoing web development projects within the organization.

EDUCATION

Ordinary National Diploma in Computer Science
Federal Polytechnic Nekede Owerri •Nekede Owerri Imo State

PROJECTS

InsightDoc
InsightDoc is an innovative web application designed to enhance document comprehension and information retrieval. With InsightDoc, users can interact directly with uploaded documents through an AI-powered chat interface. The platform enables users to upload documents, including PDFs and text files, and then engage in natural-language conversations to request summaries or ask specific questions about the document's content.

Pixiescape
PixieScape is a versatile cross-platform mobile application that enhances device personalization by providing a vast collection of high-quality wallpapers. Designed to make wallpaper discovery easy and engaging, PixieScape allows users to browse, share, and download wallpapers for their devices. The app is optimized for both iOS and Android, offering a seamless experience across platforms.

TasteQuest
TasteQuest is an intuitive recipe app designed to make cooking easier and more enjoyable. With a vast library of recipes, TasteQuest enables users to discover dishes from various cuisines, complete with step-by-step cooking instructions and instructional videos. The app provides a seamless experience for both beginners and seasoned chefs, bringing culinary inspiration to the fingertips of users.
